Upload your video

Note: When I am uploading videos, I have a better experience when using Google Chrome as a bowser.

1. In a new tab go to https://media.tru.ca/
2. Click the **Login** link on the right then select **Login** from the pop-up menu.
   Use your TRU credentials (the same username and password you login to Moodle with) to login.
3. Click **+ Add New** (located on the left side of your username) then select **Media Upload.**

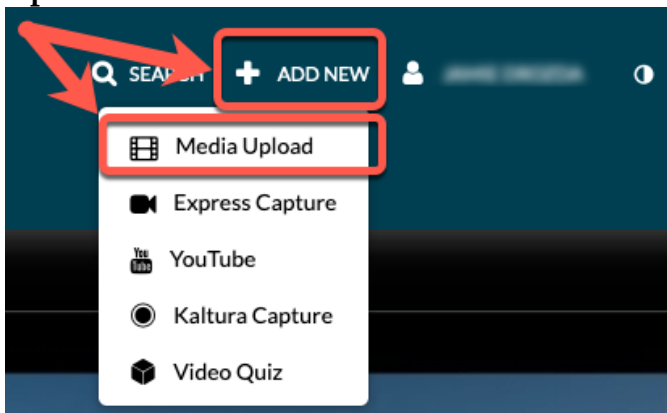

4. On the next screen drag and drop your video to upload or navigate to the file by clicking the **Choose a file to upload** button.
5. If necessary, update the videos name, it will default to the file name.
6. Scroll down and set the *Publishing Status* to **Unlisted.**
7. Click **Save.**

Get the oEmbed code

1. If you are on the same screen, click **Go To Media**

   If you navigated away, login if you logged out, hover over your username and select My Media then click the title of your video.

2. Scroll down past the video and click **Share**

3. Click the **oEmbed** tab and copy the URL

4. Paste the copied URL into the video upload interface, then submit!
